

XXV Congresso Nazionale SIBPA 2021

Guidelines for Poster presenters - Gather.town

The congress will be held in the platform Gather.town, with the poster sessions taking place in virtual poster rooms. The participants will move their avatar around the rooms, and when they get close to a specific poster stand, they will be able to see the preview. Those interested in viewing the full poster could enter the private area in front of the stand. If in the same area, the presenter will be able to explain the work in more detail and share their computer screen.
